What you can expect to see and hear during Snow White and the Seven Dames

- The stage will look different throughout the performance. This is called changing the set. We use different sets as it helps us to tell our story.
- Below are some pictures of our set:

- Some of our scenes are quite dark. The actors will use torches on stage to see where they are going. This has been well rehearsed, and the actors are safe.

This is Snow White, she is played by an actor called Emma Mullen

- The performance may be loud at times, but you are allowed to cover your ears. You can bring ear protectors to the performance, this is allowed.
- After the songs have finished the audience might clap, this shows the actors they have enjoyed the music and dancing. You can clap if you like and you can wave at the actors too.
- The audience might get involved with the performance from their chair. This is called audience interaction. You can 'boo' the baddies and clap for the goodies. The actors like it when you get involved but you do not have to.
- We often use pyrotechnics during our shows. A pyrotechnic is a small controlled explosion on stage which makes a loud bang. **For this relaxed performance there will be no pyrotechnics used.**
- After the performance is finished the lights will get brighter and you can leave the auditorium. The ushers will be there to help show you the way out of the building. You may leave by a different route than you entered.

We hope you enjoy your visit to Perth Theatre. We are very happy you have chosen to attend our pantomime and hope to welcome you to Perth Theatre again soon.
